

TOM GUSTAFSON

FOR STATE HOUSE DISTRICT 89

An experienced problem solver
with a record of results.

Tom Gustafson has a long record of service and leadership for South Florida. As former Speaker of the House of Representatives, Tom is a proven problem solver who worked across party lines to tackle tough issues like job creation, education and infrastructure improvement.

Now after working for 22 years in the private and academic sectors, Tom has grown tired of watching politicians in the legislature take care of themselves and special interests, while ignoring the needs of average Floridians and local businesses. Tom wants to go back to Tallahassee to make sure public servants start to actually serve the public again.

TOM GUSTAFSON:

A PROVEN LEADER TO REFORM TALLAHASSEE

As former Speaker of the House, Tom earned a reputation as a bipartisan problem solver and reformer. That's why Tom will:

Protect our schools: Tom understands quality education is an investment in our future and strengthens the middle class. He will fight against massive budget cuts to education, keep class sizes small, and prevent teacher layoffs.

Grow our economy and create jobs: Tom will focus on supporting local businesses and strengthening infrastructure and smart development to protect our coastal communities.

Make sure public servants serve Floridians, not special interests: Too many politicians in Tallahassee put corporate profits ahead of Florida consumers. Tom will work to put Florida's interests first again.
